

# Trivia Sudoku

This is the primary mechanism by which mountains are built on continents, when two tectonic plates collide, either pushing the earth's crust upward or forcing one plate below another.

Use logic to fill in the puzzle so that each of the 9 letters 'RECOPYING' appears exactly once in each row, column and 3x3 block. There is only one solution. Find the trivia answer - hidden along a shaded row, column or diagonal.

				O	R			
							C	
							N	Y
		E				R		P
			N		I			
G		Y				I		
R	I							
	P							
			C	E
